

## CLEAN & GO

WHITE LOOPED MICROFIBRE VELCRO MOP CM 40

Product code. 0M000705

Microfibre mop with blue Velcro support, for use with the tool with Velcro art. 00000887, suitable for cleaning surfaces with medium dimensions. This Microfiber mop can easily be changed for each room or area, thereby reducing the risk of cross-contamination when moving from room to room. Each mop contains thousands of microscopic fibers, which are capable of actually removing bacteria from floors, walls and stairs - making cleaning quick, easy and effective. It considerably reduces the use of detergents, leaving surfaces clean without streaks. Use dry for dusting and damp for washing and disinfecting. This is a mop system used by hospitals, hotels, motels, restaurants and large commercial users worldwide. Absorbing power: medium Alkali products can damage the fibre ( <ph 11) Washing temperature: max 90°C Mechanical force: high (thanks to its peculiar star-shaped structure it can catch dirt and hold it back) Do not bleach it will reduce the life of the microfiber T.T.S. microfibre causes a microbial count percentage reduction > 90% on the test microbial strains.
