

CLEAN & GO

MICROBLUE VELCRO MOP CM 40

Product code. 00000727

This pile is Microfiber, which composed of 80% polyester and 20% polyamide fiber in 2 denier and it is split 16~17 micro segments in 0.1~0.13 denier by special chemical treatment. Fiber splitting makes so many pin holes among fibers which have a strong absorbability by capillary action and surface physical process, this twisted pile keeps shape stability in spite of repeated washing. Due to twist under special physical process, this twisted pile keeps shape stability in spite of repeated washing. In order to have more absorbability as a mop, we have inserted with Microfiber cloth up material located in between the pile and backing. Absorbency: when dry, it absorbs up to twice its own weight
Composition 50% Microfiber (Polyester 70%+Polyemide 30%) + 50% Polyester Weight 75 gr
WASHING & TUMBLE DRY Washing Temperature : maximum 90° Mechanical action normal. Do not use strong alkaline detergent. (=ph 11) Tumble drying Possible : maximum Temperature 60°
Washable : Above 300 times. APPLICATIONS · Mainly use for WET MOP · Cleaner of indoor floor cleaning (hotel, home, office, hospital etc.) WARNING · Do not use fabric softener. Avoid contact with bleach.
