

1200 W White Abs Hair Dryer

Description

The wall-mounted pistol-style hair dryer was developed for use in hotel and guesthouse bathroom rooms, offering a safe, functional and easy-to-use solution for guests.

With two drying speeds and a continuous push button, it allows simple and efficient control during use. The 1200 W power, combined with an air speed of 13 m/s, ensures effective drying with controlled noise levels of around 60 dB, suitable for room environments.

Made of durable ABS with a white finish and **dimensions of 215 x 100 x 155 mm**, it features a discreet design that is easy to integrate into different bathroom styles. The IPX1 protection rating and Class II electrical insulation ensure safety for daily use in indoor environments.

Compact and practical, this hair dryer was designed exclusively for installation in guest room bathrooms and is
