

High-Speed Brushed Stainless Steel Hand Dryer

Description

The High-Speed Hand Dryer in brushed stainless steel was developed for professional environments that require performance, hygiene and durability, such as hotels, restaurants, shopping centres and corporate spaces. Its warm air curtain technology ensures rapid drying in just 10 seconds, thanks to the air outlet speed of 525 km/h, ideal for locations with high user turnover.

Made of AISI 304 stainless steel with a brushed finish, it combines strength with a modern anti-vandal design that integrates easily into any setting. The optical sensor enables automatic activation and stop by hand proximity, ensuring completely hygienic, touch-free use. With **double electrical insulation and Class II rating**, it can be installed just 0.6 metres from water points, offering safety and versatility.

Equipped with a **HEPA (High Efficiency Particulate Arrestance) filter** as standard, it captures over 99.9% of

airborne particles, including dust, mites, bacteria and even viral particles, ensuring a cleaner and more controlled environment. The filter should be replaced annually or according to the level of use and dirt accumulation. The reduced noise level (63 dB) ensures acoustic comfort even in smaller spaces.

With a total power of 1400 W, a 750 W motor, an **IP23 protection rating** and **dimensions of 33 x 26 x 18 cm (height x length x width)**, this dryer offers energy efficiency, easy maintenance and long durability, making it an ideal solution for modern, high-use installations.

Compatible filter: [RA5028CH](#)

Warranty: 2 years
