

Faux Leather Square Waste Bin with 2 separators

Description

- Implement sustainable practices with elegance in your hotel rooms using the square faux leather bin with 2 internal dividers.
- Its square design adds a modern touch, and the faux leather finish provides sophistication.
- With a 5-liter capacity, this solution is designed to simplify the separation of recyclable and non-recyclable waste in hotels, local accommodations, and offices.
- Made of synthetic leather (faux leather) with a high-quality MDF structure, it combines durability, refined design, and functionality.
- Includes two metal dividers with handles that allow for practical and efficient waste separation.
