

Horizontal stainless steel baby changing table - Mediclinics

Description

The BabyMedi® horizontal wall mounted baby changing station has been developed to offer high standards of safety, hygiene and durability in high traffic public spaces such as shopping centres, airports, public buildings, nurseries and other professional facilities.

Manufactured in polypropylene with integrated antibacterial additive and exterior in AISI 304 stainless steel, it combines structural resistance with a robust and professional finish, ideal for demanding environments.

The changing surface, with approximately 1,900 cm², integrates **Biocote® antimicrobial technology**, based on silver ions directly incorporated into the plastic. **This technology facilitates cleaning and reduces the proliferation of microorganisms responsible for odours, stains and contamination**, contributing to a safer environment.

[Horizontal stainless steel baby changing table - Mediclinics](#)

This model is **certified according to EN 12221-1 and EN 12221-2 standards**, which require resistance to a static load test of 50 kg for one hour. Internal laboratory tests have also demonstrated resistance above 100 kg, reinforcing its reliability in intensive use.

Indicated for use from birth up to 12 months of age and up to a maximum weight of 11 kg, according to the manufacturer's instructions.

Functionality designed for professional use:

- Adjustable nylon safety belt with quick release fastening;
- Two side hooks for hanging bags, keeping personal belongings always accessible;
- Integrated disposable liner dispenser, with lock and special Mediclinics key, approximate capacity for 80 units (not included);
- Hidden opening and closing system, composed of reinforced steel hinges and pneumatic cylinder, ensuring smooth movement and long durability.
- **Dimensions (length x width x height):**
 - Closed: 860 x 100 x 480 mm
 - Open: 860 x 570 x 480 mm

Its modern design allows harmonious integration into any professional restroom, ensuring a hygienic, resistant solution prepared for continuous use.
