

Vertical Baby Changing Station White - Mediclinics

Description

The BabyMedi® vertical wall mounted baby changing station has been developed to ensure safety, hygiene and durability in high usage public spaces such as shopping centres, airports, hospitals, restaurants, hotels and nurseries.

Installed directly on the wall, this vertical model is manufactured in white polypropylene **with integrated antibacterial additive**, ensuring durability and easy maintenance even in high traffic environments.

The surface integrates **Biocote® technology**, based on silver ions, directly incorporated into the plastic. This **antimicrobial protection reduces the proliferation of harmful microorganisms, fungi and mould** responsible for odours, stains and contamination, contributing to a safer and more hygienic environment.

[Vertical Baby Changing Station White - Mediclinics](#)

Certified according to European standards EN 12221-1 and EN 12221-2, this baby changing station has been tested to withstand a static load of 50 kg for one hour, meeting strict safety requirements for public use.

Functionality designed for intensive use:

- Bed with approximately 1,900 cm², wide and comfortable;
- Adjustable nylon safety belt with quick release;
- Two side hooks for hanging bags;
- Integrated disposable liner dispenser with lock and special Mediclinics key (approximate capacity for 80 units, not included);
- Hidden opening and closing mechanism, with reinforced steel hinges and pneumatic cylinder, ensuring smooth movement and high durability.

Recommended installation height: between 700 and 800 mm from the floor to the lowest point.

• **Dimensions (width x length x height):**

- Closed: 10 x 55 x 89 cm
- Open: 89 x 55 x 48 cm

Its modern and discreet design allows harmonious integration into any professional restroom, offering a robust, hygienic and certified solution for spaces that value family comfort and compliance with safety standards.
