

Brushed Stainless Steel Hand Dryer High Speed 378 km/h 1200W HITFLOW

Description

The high-speed hand dryer in AISI 304 stainless steel was developed for professional environments that require speed, durability and hygiene, such as hotels, restaurants, offices, shopping centres and malls. Its robust construction and **anti-vandal design** ensure high resistance to intensive daily use, maintaining a modern and professional appearance.

With a total power of 1200 W and 20000 rpm, it combines a 500 W motor with a 600 W heater to deliver fast drying between 10 and 15 seconds. The air speed of 378 km/h and the flow rate of 1910 l/min ensure efficient performance, with an outlet temperature between 20 and 40 °C at 10 cm. Activation is fully automatic through the electric sensor with LED indicator, avoiding direct contact and promoting greater hygiene.

Made of AISI 304 stainless steel with a thickness of 1.5 mm, it achieves the perfect balance between strength and elegance. With a noise level of only 72 dB and **Class I electrical insulation**, it adapts to high-traffic areas without compromising comfort. The **IPX1 protection** rating reinforces safety against water splashes.
