

Waste Separation Bin with Base and Wheels 3x60L

Description

Mobility and organization in waste management for hotels, offices, and high-traffic areas.

- This waste separation system with three 60-liter bins is designed to make recycling more practical and efficient.
- The 360° wheeled base allows easy movement of the containers between floors or different areas of the building, streamlining collection and reducing effort for the cleaning team.
- The colored lids (yellow, blue, and green) facilitate waste separation, promoting sustainable and organized management.
- The bins can be used attached to the base together or individually, providing flexibility for different collection routines.
- Key features:
 - Total capacity of 180 L (3×60 L);
