

Diaper Bin with Airtight Seal Common Bags

Description

Hygiene, convenience, and savings for professional environments with babies.

- The diaper bin was developed for those looking for an effective solution for eliminating odors and bacteria, without relying on expensive refills. With a triple airtight seal system, it prevents the spread of bad odors in the environment and keeps the bathroom or changing area always fresh and hygienic.
- Compatible with regular trash bags, it is the ideal choice for places that handle a high volume of diapers such as hotels, nurseries, daycare centers, or family accommodations.
- Operation is simple and can be done with just one hand: just insert the diaper and turn the crank.
- Main features:
 - Compatible with regular trash bags (no special refills required);
