

Buckingham 1L Electric Kettle in Polished Stainless Steel for Hotel

Description

The Buckingham 1L electric kettle was designed to offer convenience and elegance in hotel rooms. With British design and high-quality materials, it combines modern style with the reliability required for intensive hotel use.

- Equipped with a 360° base, concealed heating element and removable filter, it ensures ease of use and cleaning. The integrated water level window makes filling simple, while the ergonomic handle provides comfortable handling.
- The Strix thermal controller, a world leader in kettle technology, ensures precision and safety in operation.
- Made of 304 stainless steel, this 1-litre kettle is durable, robust and safe for daily use. It includes boil-dry protection and practical cord storage.
- Main features:
 - 1L capacity, ideal for hotel rooms;
