

Professional Air Purifier White Shield

Description

The White Shield Professional Air Purifier is the ideal solution for demanding environments such as hotels, hospitals, and clinics looking to ensure pure and healthy air.

Manufactured in France and compliant with the NF B44-200 standard, this equipment covers up to 60 m², creating an invisible barrier that neutralizes viruses, contaminants, odors, and allergens in your space. Equipped with JVD's **innovative Smart Mineralisation© technology**, it offers performance proven by independent laboratories without the need for consumables, making it efficient and economical over time.

The exclusive design by Ramy Fischler combines functionality with a sophisticated aesthetic in creamy white color that easily integrates into any professional environment.
