

Extendable Black Mirror with Light and 3x Magnification

Description
This extendable mirror with light in the elegant black color is the ideal solution for hotels and local accommodations that seek to combine functionality and sophisticated design in their spaces. Works connected to the power outlet and does not require batteries ensuring continuous use. Equipped with two articulated arms, it allows easy adjustment of the mirror position according to the user's needs, ensuring maximum convenience and versatility. It has two mirrors: one with normal view and another with triple magnification (x3), perfect for precision care such as makeup or shaving. With dimensions of 37 x 29 x 6 cm and a diameter of 17 cm on the main mirror, this model offers a wide reflective area without compromising the available space. The articulated arm length of 28 cm ensures sufficient reach to adjust the desired angle effortlessly. Diameter of the wall fixing support base: 12 cm.
