

Timeless White 40L Waste Bin

Description

The Timeless White 40L waste bin was developed for professional spaces seeking a functional solution with a clean and contemporary aesthetic. Manufactured from high-quality recycled polypropylene, it ensures resistance to intensive use and reinforces a commitment to more sustainable practices.

With a **capacity of 40 litres and dimensions of 709.4 x 352 x 242.9 mm (height x length x width)**, it easily adapts to continuous-use environments such as hotels, restaurants, offices, shopping centres and clinics, ensuring efficient waste management.

Also available in black ([ALR33600](#)).

The removable lid features a finish designed to conceal the waste bag, keeping the space visually organised. In addition, it can be fixed to wall brackets (included) or directly with screws, easily adapting to different spaces and needs.
