

Chelmsford 2 Slice Toaster THT-8016A

Description

The Chelmsford THT-8016A 2 slice toaster was developed to meet the demands of hospitality and professional accommodation, being suitable both for hotel rooms and for breakfast areas that value reliability, ease of use, and a refined design.

Manufactured in AISI 304 stainless steel, it combines high durability with an elegant finish in black and polished steel, integrating easily into different interior styles. The wide slots allow toasting various types of bread evenly, ensuring consistency in the final result.

Equipped with LED indicators and variable time control, it allows adjusting the toasting level according to the user's preference. **The Strix thermal controller ensures safe and stable operation**, even in contexts of frequent use.

Designed to facilitate day to day operations, the toaster
