

Black Outdoor Waste Bin with Inner Container

Description

The black outdoor waste bin with inner container was developed to meet the demands of high-traffic outdoor areas, offering robustness, stability and easy maintenance. Ideal for public spaces, gardens, parks, hotel outdoor areas and other professional environments, it ensures efficient waste management even under intensive use.

Manufactured in coated iron with a black finish, it features a robust structure with 1.0 mm thickness, designed to withstand frequent exposure to outdoor conditions. Its internal container with **100 liters of capacity** in galvanized sheet facilitates daily waste collection and contributes to quick and hygienic maintenance.

With a **diameter of 66 cm and a height of 90 cm**, it provides generous capacity for continuous use, maintaining a neat and discreet appearance in its surroundings. Its reinforced construction, the 4 holes in the base for floor fixing and the modern design make it a
