

Foldable 2-Wheel Luggage Cart Black Carpet

Description

The foldable luggage cart with black carpet is a professional solution developed for hotels and reception areas that require resistant, functional equipment with simple maintenance. Manufactured in stainless steel with a thickness of 0.6 mm and tubes with a diameter of 25 mm, it offers a solid and stable structure, suitable for the frequent transport of suitcases and heavy loads.

The chromed finish gives it a modern and elegant appearance, integrating easily into lobbies and circulation areas with higher aesthetic requirements. The platform covered with black carpet protects luggage against scratches, minimises unwanted slipping and maintains a professional look during service.

The foldable system allows the cart to be stored easily, making it ideal for environments with limited space. Equipped with two 6" universal wheels, it provides smooth movement, good manoeuvrability and comfortable use by reception teams.
