

Ironing Board Kit + 1600W Steam Iron + Holder

Description

Complete ironing kit for hotel rooms, consisting of an ironing board, 1600W steam iron and integrated iron holder on the board. Functional and compact solution for frequent use in hospitality environments.

The board features a resistant structure with adjustable height and a mesh surface that allows better steam flow. It includes a specific holder for the iron, with a heat-resistant base and secure fixation, keeping the equipment stable during use.

The 1600W iron ensures fast heating and consistent performance, with a non-stick ceramic soleplate, temperature control and automatic shut-off system for greater safety.
