

FUGA EVO Brushed Gold Hand Dryer 800W with HEPA Filter

Description

The FUGA EVO hand dryer in AISI 304 stainless steel with brushed gold PVD finish combines performance, durability and a sophisticated appearance for modern bathrooms and premium environments.

Equipped with an electronic sensor and replaceable HEPA H13 filter, it ensures hygienic and efficient use in hotels, restaurants, offices and other high-traffic spaces. The 35,000 rpm motor provides fast drying, while the robust anti-vandalism structure ensures high durability under intensive use.

The construction without dangerous edges enhances safety, and the compact design allows discreet and elegant wall installation.

• Technical features:

- Material: AISI 304 stainless steel;
- Finish: brushed gold PVD;
- Power: 800 W;
