

1600W High-Speed Hair Dryer with IONIC

Description

The **1600W High-Speed Hair Dryer** has been designed to provide a superior drying experience by combining power, efficiency, and hair care. Equipped with a high-speed brushless motor, it generates a powerful airflow that dries hair quickly, reducing drying time and improving user comfort.

IONIC technology helps neutralize static electricity, reducing frizz and leaving hair smoother and shinier. The intelligent temperature control system continuously monitors airflow heat, protecting the hair from overheating and helping preserve its health and natural appearance.

It features multiple temperature and speed settings, allowing users to adapt the drying process to different hair types and styling needs. The temperature memory function automatically saves the last setting used for added convenience.

Its lightweight and ergonomic design, combined with a noise-reduction system and removable filter for easy cleaning, makes it an excellent choice for hotels, holiday rentals, spas, gyms, and both professional and home use.

[1600W High-Speed Hair Dryer with IONIC](#)

Key Features

- High-speed brushless motor
- 1600W power output
- IONIC negative ion anti-frizz technology
- Intelligent temperature control
- Temperature memory function
- 2 airflow speeds
- 5 temperature settings
- Automatic motor cleaning mode
- Noise reduction system
- Automatic shut-off after 15 minutes
- Removable filter for easy maintenance
- Concentrator nozzle included
- 3-meter power cord

Technical Specifications

- Power: 1600 W
- Voltage: 220–240 V
- Frequency: 50–60 Hz
- Dimensions: 243 × 95 × 73 mm
- Weight: approximately 550 g
- Cable length: 3 m
- Warranty: 1 year for professional use
