

MALTA 10 Black Hotel Safe

Description
The MALTA 10 Hotel Safe has been designed to provide secure storage for personal belongings, documents, cash, and valuable items. Its elegant and discreet design blends seamlessly into hotel rooms, serviced apartments, offices, and residential environments. Equipped with a backlit electronic keypad, it allows users to create access codes from 3 to 6 digits, ensuring simple and convenient operation. For added security, it also features a 6-digit emergency code and a mechanical emergency lock with key included. The 180° door opening provides easy access to the interior, while the mounting holes located on the base and back panel allow for secure permanent installation. The safe operates with 4 AA batteries and includes a USB Type-C emergency power connection when required. The MALTA series stands out for its reliability, ease of use, and low-maintenance operation, making it an excellent solution for the hospitality and professional sectors.
