

Foldable Grab Bar in Satin Stainless Steel 80cm

Description

The **80 cm Foldable Grab Bar** is an essential safety feature for creating accessible and inclusive environments. Specifically designed for disabled-friendly bathrooms, this bar combines extreme durability with a functional design that respects the necessary space for movement.

Thanks to its fold-up mechanism, the bar can be raised vertically when not in use, optimizing available space and facilitating wheelchair transfers or caregiver assistance.

Key Features and Benefits:

- **High-Quality Material:** Constructed from stainless steel, ensuring total resistance to corrosion and rust, even in high-humidity environments.
- **Satin Finish:** The brushed/satin finish offers a modern, discreet aesthetic while being more resistant to fingerprints and water marks.
- **Safety and Stability:** Reinforced structure designed to support high load capacities, providing total confidence for the user during support or transfer.
