

Proapliq 40W Fly Swatter Insect Catcher

Description

- The Proapliq 40W Insect Catcher is a professional electric fly killer highly effective in controlling flying insects such as flies, mosquitoes, and others, ideal for commercial and industrial spaces.
- This HACCP insect catcher attracts insects with UV light and traps them on a discreet adhesive board, without the use of chemicals, odors, or noise.
- With a modern design and matte white finish, it easily integrates into any environment, recommended for restaurants, hotels, supermarkets, clinics, industrial kitchens, and much more.
- It is an ecological and silent pest control solution to ensure a hygienic and safe space.
- Main features:
 - Electric trap for flying insects with UV light
 - 2 low-consumption 20W lamps (E14 fine screw)
 - Coverage up to 80 m², ideal for large areas
 - Can be placed or wall-mounted
